Vivekananda Institute of Professional Studies

BCA, Computer Application

(August 01, 2017 - September 30, 2020)

PROJECTS

Food Ordering app

"Designed the user interface for a food ordering web application using ReactJS, that enables users to browse and order food items from various restaurants."

Todo-App

"This app is designed to add ,edit and delete task

Portfolio

"Created a portfolio web application using ReactJS, that showcases my skills, experience, and projects. Utilized HTML, CSS, and JavaScript to design and implement a visually appealing and responsive user interface. Employed React Router to enable smooth navigation between different sections of the application"

BMI-Calculator

This app is designed to calculate a person's body mass index (BMI) based on their height and weight inputs. The BMI is then used to determine whether the person is underweight, normal weight, overweight.
